DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities:

On line 1 of paragraph 22, "Fig. 3" should be --Fig. 4--; and

Reference characters 32 and 33 (see Figure 2) are not present in any of the drawings.

Appropriate correction is required.

Claim Objections

The claims are objected to because they include reference characters which are not enclosed within parentheses.

Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements in the claims should be enclosed within parentheses so as to avoid confusion with other numbers or characters which may appear in the claims. See MPEP § 608.01(m).

Claim Rejections - 35 USC § 112

Claims 4 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to

which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification has not adequately disclosed the structured defined therein, i.e., the specification has not described a gas-filled container with a gas nipple and a compressible toothpaste bag.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 13, an antecedent basis for "the protruding lip" (see lines 3-4) has not been defined. It appears that claim 13 should depend from claim 12 (as opposed to claim 2) since the protruding lip is first defined in claim 12.

Allowable Subject Matter

Claims 1-3, 5-10, 12 and 14-16 are free of the art.

Claims 4, 11 and 13 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 1st and 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Blackwell reference is cited for disclosing pertinent structure.
